KERASTRAIGHT

SMOOTHING CONDITIONING TREATMENT

from..... £150-£300

Kerastraight Keratin treatment is a revolutionary process that transforms the hair, replenishing condition and banishes frizz without damaging or changing its natural structure. Suitable for all hair types including, chemically treated, coloured, permed, relaxed, straightened, highlighted, or bleached hair. It is free from formaldehyde.

The application process takes from 1.5-4 hours depending on the its length and thickness. The product is then infused into the hair with a 450 degree flat iron to seal in moisture, hydrate. Results are visible immediately. Hair looks shinier and is effortless to manage, dramatically decreasing styling time, with resilience restored so it's not affected by humidity, rain, or perspiration.

The results last two to four months, and with repeated treatments clients will observe a continuous improvement in hair condition.

YUKO

HAIR STRAIGHTENING SYSTEM

from..... £200-£500

Yuko system is an amazing permanent hair straightening system from Japan that can revive hair that's dull from over exposure to chemicals or heat, making it effortless to manage, and reducing styling time dramatically. Hair can be blast dried with fingers or left to dry naturally with a smooth finish.

The Yuko treatment system is like a perm except the hair is ironed straight and not curled. It is low maintenance, needing to be done 2 or 3 times a year (possibly more for very curly hair). Parts of the hair can be treated differently, e.g. a difficult fringe or curly nape hair, to achieve the look you want. As it's a permanent process it's humidity resistant, so you can kiss that monster frizz goodbye, and be confident that your hair will always look good whether at the gym, dancing in a club or when you step out of a swimming pool!
